

Twin Axe Throwing Risk Assessment

Hazards	Who maybe harmed and how?	Control Measures	Action to be taken to control the risk	Who needs to carry out the action?	When is the action needed by?	Done
Manual Handling	All staff, users and observers may suffer sprains or fractures if they trip over debris or slip on spillages. Staff may suffer strains or bruising injuries to their back or elsewhere, from handling heavy/bulky objects.	All staff are trained how to lift properly. Staff are to work within their manual handling capabilities.	Staff to complete manual handling online training and wearing of PPE.	Manager/staff	now and new employee Work Induction Programme	
		Trolley available for moving games and associated paraphernalia.	Staff to use trolley/ramp.	Manager/staff	now	3/8/2024
		Ingress / egress route kept clear.	Staff to recce route on ingress and egress.	staff	dynamic	
		Use of lift (rather than stairs) where possible.	Staff to identify lifts.	staff	dynamic	
		Portable ramp use when removing game etc in and out of vehicle.	Ramp to be made accessible and part of vehicle SOPs.	staff	now	
		Games and associated paraphernalia to be secured in vehicle using appropriate anchor points and straps.	Anchor points and straps accessible.	Manager/staff	dynamic	
Power loss	All staff, users and observers may suffer breathing issues.	Do not allow anyone to be on the inflatable during inflation or deflation as this could result in game collapsing on person(s). If using the generator is being used, fuel to be checked on an hour basis. The inflatable is designed for a progressive collapse to allow user to evacuate the inflatable in a calm manner under direction of person resourcing the inflatable.	No person on assault course during inflation and deflation.			
Worsenig a pre-existing condition	All staff, users and observers may aggravate a pre-existing condition.	Recommend users with pre-existing conditions to self review whether they should use the assault course.				
Slips, trips and falls	All staff, users and observers may suffer sprains or fractures if they trip over debris or slip on spillages.	Staff set up game as per manufacturers specifications in appropriate location with level/firm/hard ground and remove any potential slip/trip/fall hazards within a 5 metre radius. Should be installed appropriate distance from ingress/egress and emergency exits. Do not move or endeavour to reposition the inflatable under any circumstances. Ensure that the anchors are in place at all times.	Staff and users to keep an eye on the area around the game, and immediately clear away any items that present a risk.	Staff	dynamic	
		Staff / Users to 'clean as they go'.	Users are encouraged not to eat or drink whilst using the game.	Staff/Users	dynamic	
		360 x 16 mm pegs are used to secure assault course when on grass, and sandbags when when on hardstanding.	Users are to enter from the front, and not to walk within 2 metres of sides and back of assault course.			
		Any leads should be taped down or routed outside of access routes or area of foot traffic to prevent trips.			dynamic	
		Climbing, hanging or sitting on walls is DANGEROUS and must not be allowed at any time. Equipment must always be supervised this is of exceptional important when the inflatable is erected on hard surfaces.				
		Once game is installed in location by staff, game must not be moved without authority from FunProUK.			dynamic	

Electrical Safety faulty wiring and/or faulty electrical game.	All staff, users and observers may get electrical shocks or burns from faulty electrical equipment or on installation. Electrical faults can also lead to fires.	All components are PAT tested annually and manually inspected at time of installation.	ensure electrical equipment is maintained in order.	Manager/staff	yearly	
		Staff trained to spot and report any defective plugs, discoloured sockets, damaged cable and on/off switches, and to take any defective equipment out of use and mark up accordingly to prevent subsequent use.	staff to have sufficient knowledge to identify issues with electrical items.	Manager/staff	dynamic	
		The inflatable requires 1 x 13 amp plug socket, and needs to be no more than 5 metres from power source.	Use of transformer to be made available if needed.	staff	dynamic	
		Any cables to be covered and routed away from areas that will have footfall.		staff	dynamic	
		No water to be within 1 metre of the game and power source (sockets).	Brief hirer / users	staff/users	dynamic	
Use of game and associated paraphernalia.	All staff, users and observers may collide with other players.	Equipment is supervised by a responsible adult either from the client or by FunProUK on behalf of the client.		Manager/staff	dynamic	
		Participants must follow the operators instructions at all times.	operator instructions made available	staff/client	now	
		Children must be supervised by a responsible adult.		staff/client	dynamic	
		Food and drink must not be consumed or in user possession whilst playing or within 1 metre of the game. Nor should food or drink be placed on the game.	safe playing environment identified for hire location.	staff	dynamic	
		If the person in charge of the game/equipment forms the opinion that a user is under the influence or drink or drugs likely to cause harm to themselves, others or equipment will be refused use of the game.	authority granted to individual responsible.	staff/client	dynamic	
		Overnight or whilst un-attended for long period of time the equipment should be disabled from use.	authority granted to individual responsible.	staff/client	dynamic	
		Users should be aware of their own surroundings when preparing to throw, and throwing the axes, being aware of people around them.	authority granted to individual responsible.	staff/users	dynamic	
		Person in charge of the game reserves the right to refuse use of the game or stop play should they feel it is unsafe to participate in the game.	authority granted to individual responsible.	staff/hirer	dynamic	
		No animals allowed on the inflatables	authority granted to individual responsible.			
		Max persons to use the Axe Throwing is 2.		staff	dynamic	
Install / dismantle and operation		Staff to assess location of operation for suitability on installation. Liaising with event point of contact to receive any specific directions relevant to the event, site specific H&S issues and install/operating and dismantle.	Receive brief from venue event staff.	staff/hirer	dynamic	
		Ensure sufficient lighting conditions is good enough to work in, if not natural, use lighting provided by venue.	work within daylight hours where possible.	staff/hirer	dynamic	
		Welfare of staff whilst working/on site is paramount, staff to be afforded access to toilets, washbasins, drinking water.	access to on site welfare	hirer	planned	

		Ensure location assigned for inflatable is suitable for install, deconflicting with pedestrians/power sources/appropriate surface for install. Staff to be afforded sufficient time and space to Install / dismantle and operation. People not involved to keep away from work area, non compliance, work to stop and report to hirer.	recce area / keep area clear	staff/hirer	dynamic	
Weather	All staff, users and observers may risk of burns or electric shock or cuts and bruises if games exposed to the elements.	Assault course can be used both indoor and outdoor when the weather is suitable. In periods of heavy rain, the assault course will be powered down. No inflatable should be used in winds above 24 mph (38 kmph), which is Force 5 on the Beaufort Scale (small trees in leaf begin to sway) The assault course will be anchored down with manufacturer recommended sized pegs.	position indoors (no exposure to water or outside elements.	staff	dynamic	
Fire	Burns	Blowers/generators filled with fuel before delivery, units are fire retardant. No smoking or BBQ near the inflatables. Event to provide fire extinguisher for petrol fuel.	no form of ignition in vicinity	staff/hirer	dynamic	
Transport	Collision	Speed restrictions to be in place by hirer and briefed to staff/driver. Adherence to all road signs by driver. Follow onsite rules, follow traffic route. Ensure that vehicle can manoeuvre within the area, both width, height & length, and firm surface.	Follow onsite rules, follow traffic route, wear PPE, be able to communicate with people in vicinity of moving vehicle, keep pedestrian well clear of moving vehicle.	staff	dynamic	
		Driver & Codriver to wear PPE, be able to communicate with people in vicinity of moving vehicle, keep pedestrian well clear of moving vehicle. Where separation can not be controlled, physical barriers to be used that are provided by hirer. Avoid reversing where possible.	Clear comm and visibility	staff/hirer	dynamic	
		During hours of darkness, lights to be used on vehicle, co-driver/or hirer event staff wearing PPE, to walk safe distance in front of vehicle to monitor pedestrians.	Use of PPE and lighting from vehicle.	staff	dynamic	
Criminal Activities (Security) or unsupervised use.	All staff, users and observers may suffer harm/injury due to equipment being tampered.	If possible the equipment should not be left unattended whilst area is open to guests/public. If it is necessary to leave the equipment unattended at any time it is disabled to prevent unsupervised use.	unplug / remove puck	staff/hirer	dynamic
