

## Method Statement for Axe Throwing

This method statement is in three phases – Before event – Operation and Conclusion.

### Before the event:

1. Fun Pro UK employee to ensure all pre-event vehicle checks are completed in accordance with the driver's weekly vehicle inspection requirements.
2. Check that the Axe Throwing Inflatable is serviceable, clean and free from damage prior to use.
3. Familiarise themselves with the relevant Risk Assessment, Hire Agreement and Rules of Play.
4. Ensure all required PPE, manual handling equipment and safety equipment are present, serviceable and used in accordance with manufacturers' instructions.
5. Fun Pro UK employees will wear branded company uniform with the company logo for the duration of the hire period whilst on site.
6. Fun Pro UK will ensure all employees understand their roles and responsibilities in relation to the equipment and event.
7. Fun Pro UK will ensure employees are briefed on details specific to the venue, including site health and safety procedures, site inductions, access arrangements and agreed times for ingress and egress. Fun Pro UK will liaise with the client's on-site contact regarding these requirements.
8. The client is to provide Fun Pro UK with a named point of contact who can liaise directly with the employee throughout the duration of the contracted hire period.
9. To allow Fun Pro UK to identify safe access to the site, the client must advise of any site-specific ingress and egress restrictions, including lift access, height and width restrictions, stairs, ramps, access passes and any other relevant restrictions.
10. A suitable electrical supply must be available for the inflatable blower. The required electrical supply will be confirmed by Fun Pro UK in advance of the event. Extension cables, where required, will be provided by Fun Pro UK and must be positioned safely to prevent trip hazards.
11. The Axe Throwing Inflatable is to be positioned on a suitable, level surface appropriate for inflatable equipment. The client is responsible for confirming that the proposed location is suitable and free from underground or overhead services and other hazards.
12. The client must confirm ahead of arrival that an appropriate location has been identified for the Axe Throwing Inflatable.
13. The Axe Throwing Inflatable may be operated indoors or outdoors, subject to the suitability of the venue, available space, ceiling height, ground conditions and weather conditions.
14. The exact dimensions and access requirements will depend on the specific Axe Throwing Inflatable hired. Fun Pro UK will confirm the required operating area, equipment dimensions and access requirements prior to the event.
15. Suitable access must be available to transport the equipment safely from the delivery vehicle to the setup location. The equipment must not be carried up or down stairs unless specifically assessed and agreed as safe by Fun Pro UK.
16. Employee to inform the client of any delays to agreed arrival or setup times as soon as these become known.
17. On arrival, employee to sign in with the site and follow all applicable site procedures. The site may require identification and/or photographs. Any identification issued must be displayed or worn as directed.
18. Employee to follow traffic marshal instructions and ensure the vehicle is parked in a safe location before loading or unloading. Reversing cameras, hazard warning lights and assistance from a co-driver or traffic marshal should be used where appropriate.

19. Employee to be aware of the vehicle's height and any vehicle height or access restrictions on site.
20. On arrival, employee to liaise with the client to confirm the agreed location for the Axe Throwing Inflatable and ensure the area is suitable for installation.
21. Employee to use appropriate manual handling techniques and PPE when removing the Axe Throwing Inflatable and associated equipment from the vehicle.
22. While the Axe Throwing Inflatable is being unloaded and erected, the immediate working area should be kept clear of members of the public and other personnel to minimise the risk of injury or damage to equipment.
23. The Axe Throwing Inflatable is to be securely anchored in accordance with the manufacturer's instructions and the relevant Risk Assessment. Suitable anchoring methods will be used according to whether the equipment is being operated indoors or outdoors and the surface available.
24. Where the inflatable is being used outdoors, it must not be operated in weather conditions outside the manufacturer's permitted limits. Wind speeds and weather conditions must be monitored throughout the hire period.
25. Once erected and inflated, the employee will inspect the Axe Throwing Inflatable in situ, checking the structure, anchoring, blower, electrical connections, stitching, seams, entrance/exit areas, internal barriers and all associated safety features.
26. Any throwing axes or other associated equipment must be inspected before use to ensure they are clean, serviceable and free from damage.
27. The employee will conduct a full demonstration of the Axe Throwing Inflatable with the client, including the correct method of use, rules of play, participant restrictions, safe throwing technique and emergency procedures.
28. The client must confirm to the employee that they understand the safe operation of the equipment and are confident in supervising/operating the Axe Throwing Inflatable in accordance with the manufacturer's instructions and Fun Pro UK's Rules of Play.
29. All equipment, packaging, tools and other paraphernalia associated with the setup must be removed from the operating area and stored safely in an agreed location.
30. Employee to familiarise themselves with emergency exits, welfare facilities, first aid facilities, fire procedures and any other site-specific safety procedures.

**Operation:**

1. The client is to adhere to the Hire Agreement, Risk Assessment and Rules of Play throughout the duration of the hire.
2. The Axe Throwing Inflatable must only be operated in accordance with the manufacturer's instructions and the demonstration provided by the Fun Pro UK employee.
3. A responsible, designated operator/supervisor must be present whenever the Axe Throwing Inflatable is in use
4. The designated operator must ensure that participants understand the rules and safe method of use before taking part.
5. Participants must be supervised at all times.
6. Only the number of participants specified by the manufacturer/Fun Pro UK for the particular Axe Throwing Inflatable may use the equipment at any one time.
7. Participants must meet the applicable age, height and/or other user restrictions specified by the manufacturer and Fun Pro UK.
8. Participants must remove any loose items that could cause injury or damage to the equipment where applicable.

9. Participants must wear suitable footwear and clothing in accordance with the Rules of Play and manufacturer's instructions.
10. Only the supplied/approved throwing axes or throwing equipment are to be used. No alternative, modified or unauthorised equipment is permitted.
11. Throwing axes must only be used within the designated throwing lanes/areas.
12. Participants must remain behind the designated throwing line until instructed otherwise.
13. No person is permitted to enter the target/throwing area while another participant is preparing to throw or throwing.
14. Participants must only retrieve axes when instructed by the designated operator and when it has been confirmed that the throwing area is safe.
15. Participants must never throw an axe when another person is within the designated target or retrieval area.
16. No person is permitted to climb on, lean against, sit on or otherwise misuse the inflatable.
17. Nothing is to be attached to, placed against or leant against the Axe Throwing Inflatable unless specifically approved by Fun Pro UK or the manufacturer.
18. The inflatable must not be moved while inflated or while participants are using it.
19. The designated operator must monitor the equipment and participants throughout operation and stop play immediately if an unsafe situation develops.
20. If the designated operator considers that a participant is behaving in an unsafe manner, failing to follow instructions or presenting a risk to themselves or others, they have the authority to stop that participant from using the equipment.
21. If a participant appears to be under the influence of alcohol or drugs, or is otherwise considered unfit to participate safely, they must not be permitted to use the Axe Throwing Inflatable.
22. If unsafe weather conditions develop, particularly excessive wind, lightning, heavy rain or other conditions that could compromise safe operation, use of the Axe Throwing Inflatable must cease and the equipment must be secured in accordance with the manufacturer's instructions.
23. The operator must ensure that the operating area remains clear of obstacles, unauthorised persons and trip hazards.
24. Any damage, defect, accident, near miss or unsafe condition identified during operation must be reported immediately to Fun Pro UK and the client, and the equipment must be taken out of use where appropriate.

**Conclusion:**

1. The client will confirm with the Fun Pro UK employee when egress can commence, in accordance with the agreed hire period and site requirements.
  2. Before dismantling, the Fun Pro UK employee will inspect the Axe Throwing Inflatable and associated equipment for damage or defects.
  3. Any damage identified must be highlighted to the client and photographed/recorded before leaving the site. The equipment must be clearly identified as damaged where applicable and the Fun Pro UK administration team informed as soon as possible.
  4. The Axe Throwing Inflatable and associated equipment must be cleaned as necessary before being dismantled.
  5. Fun Pro UK employee to ensure a safe working environment is maintained during dismantling. Appropriate PPE and manual handling techniques must be used.
  6. The Axe Throwing Inflatable must be deflated and dismantled in accordance with the manufacturer's instructions.

7. Fun Pro UK employee to safely return the Axe Throwing Inflatable, throwing equipment, blower, anchoring equipment and all associated paraphernalia to the vehicle or an alternative storage area agreed with the client.
8. All electrical equipment must be safely disconnected before dismantling and removal.
9. Fun Pro UK to ensure that the operating and setup area is left clear, with no Fun Pro UK equipment, waste or other materials left in situ.
10. Fun Pro UK employee will acknowledge the client/site contact prior to leaving the venue.
11. Fun Pro UK employee to report any damage, accidents, near misses, injuries or other relevant incidents at the conclusion of the working shift and in accordance with company procedures.
